

## Fair Pay = Valued Workforce

Dear Mac Pevey, Assistant Secretary,

We the undersigned request economic dignity for the personnel who support Community Corrections. Support staff are currently at least 45% behind Washington State's own 2018 salary survey. Support staff are integral to allowing the Officers to do their work. We are important in keeping our communities safe and aiding in the successful reintegration of offenders into our communities. We face every one of the 18,000 people under supervision that enter our offices with personal risk. We make sure documentation is processed properly to ensure safety for our communities and justice is served. We stand together for fair pay for Corrections Support Staff.
